

## Social Entrepreneurship Support

Within SE Forum there is vast competence of business developers, management consultants, CSR-experts, PR-consultants, lawyers, etc. About 40 members and 400 connected people with different backgrounds and professions make up our network and together we form SE Forum - an arena for good and innovative business ideas.

Our large network and contact to philanthropies and social investors, as well as people running inspiring office hotels, is something we want other social entrepreneurs to get access to. For that reason, SE Forum has introduced a service directed to all Social Entrepreneurs: The Social Entrepreneurship Support.

Up till now the service has been free of charge and offered to everyone within the organization's network. During 2009 some ten people contacted SE Forum by e-mail to ask for support, and a handful of meetings to offer advice were set up. Among other things, advice was given on the start-up and financing of social enterprises and on where to turn to find branch information and other research related to the field of SE.

### THIS IS WHAT WE OFFER

**Matching services** - Through our network and platform, SE Forum has the possibility to connect social entrepreneurs with other social entrepreneurs, companies or organizations.

**Business support** - Help in the start-up and the process of social businesses through feedback on business plans, marketing strategies, financial advice and branch research. Students are also welcome to apply for support.

**Partnership** - The possibility to start and run a project together with or under the name of SE Forum.

Welcome to contact us to discuss what you are in need of and what kind of support we can offer you.

Contact Harry McNeil for more information.
